HIKING RULES & ETIQUETTE

BEGINNER INTERMEDIATE ADVANCED

Hikers should be advised that green circle, blue square and black diamond trail designations at Seven Springs is not necessarily the same as a similarly rated trail at another area. The system is a relative system and is only valid at this area. Hikers should work their way up, beginning with the easiest trails, no matter what their ability level may be, until they are familiar with the trails at Seven Springs.

Be advised that all poles and/or flags, fencing, signage and padding on equipment or objects or other forms of marking devices are used by Seven Springs to inform you of the presence or location of a potential obstacle or hazard. These markers are no guarantee of your safety and will not protect you from injury. It is part of your responsibility to avoid all obstacles or hazards, including those that are so marked.

IN CASE OF EMERGENCY DIAL 582-682-7787 OR 911

Hiking is one of the best ways to spend time in the great outdoors. Whether you're hiking alone or in a group, be sure to follow the written and unwritten rules of the trail. Proper hiking etiquette helps instill respect for other trail users, and it promotes stewardship of the land.

- **Know your right of way.** Check signage for the trail you are hiking, and follow the correct right of way yields.
- **Hikers coming uphill have the right of way.** If you're descending the trail, step aside and give space to the people climbing up.
- **Make yourself known.** When you encounter other hikers and trail users, offer a friendly "hello" or a simple head nod. This helps create a friendly atmosphere on the trail.
- **Stay on the trail.** Going off trail can damage or kill certain plant or animal species, and can hurt the ecosystems that surround the trail. Always practice Leave No Trace principles: Leave rocks, vegetation, and artifacts where you find them for others to enjoy.
- **Do not disturb wildlife.** They need their space, and you need yours, too. Keep your distance from the wildlife you encounter.
- **Be mindful of trail conditions.** If a trail is too wet and muddy, turn back and save the hike for another day. Using a muddy trail can be dangerous and damage the trail's condition.
- **Take time to listen.** When hiking in the great outdoors, let nature do all the talking. Be respectful of both nature and the other users, and keep the noise from electronic devices at bay.
- **Be aware of your surroundings.** Always be aware of your surroundings when hiking. It will help keep you and any members of your group safe, and it will help keep wildlife and their habitats safe and healthy.

NEARBY HIKING & BIKING TRAILS

LAUREL HIGHLANDS HIKING TRAIL (LHHT)
